PIMAlink 3.0

Cloud-based app for PIMA alarm systems

PIMAlink 3.0 is a cloud-based app that provides the user with the ultimate convenience of remotely controlling their PIMA alarm system via the smartphone from anywhere.

PIMAlink 3.0 is not just another app as it offers some unique advantages:

Fast and easy setup
Simply pair the control panel to the smartphone.
No need for registration!

Highest security level
No codes or passwords are saved on the PIMA cloud hence users have no reason to fear hackers, security breaches, etc.

Furthermore, authentication is highly secure and done with smartphone IMEI serial number and user ID password in every login attempt.

### Video verification for ultimate peace of mind
Upon alarm, a push notification is sent to the user.
A pre- and post-alarm video clip of the event is available on the app, enabling the user to verify the true nature of the alarm and even record it.
Keeping the same user codes
No need to remember additional codes, just use the same as those used for the alarm system.
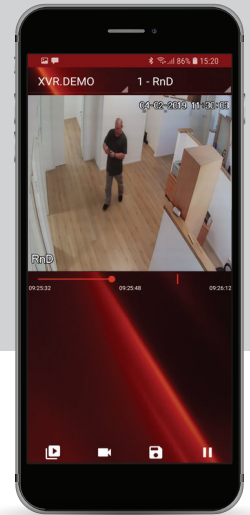

One Master User only
All system contacts can conveniently be managed by the Master User from the app.

System Status

Event Notifications

Video Verification

Key Features

- Highly secure Microsoft Azure-based system
- Alarm notifications filter by type (burglary, fire, etc.)
- One user can control up to 16 systems via the same app
- Various sounds assignment according to event type

Video verification:

- Seamless integration between FORCE and IPCAM/DVRs/NVRs
- Predefined link between video source to the panel's zones
- Immediate access to video cameras
- Pre- and post-alarm video stream
- Specific video search according to event
- Video recording on smartphone while streaming

Additional features for remote controlling the alarm system:

- Viewing System Status
- Arming/disarming the whole system or designated partitions
- Reviewing zones status
- Bypassing zones
- Reading event log
- Switching on/off a home appliance

Pairing the system to PIMAlink 3.0 is incredibly simple!

Step 1
On the panel User selects "Pairing to PIMAlink 3.0"

Step 2
User enters the Pairing Code displayed on the panel into the smartphone app

Step 3
The App connects PIMAlink 3.0 and approves the pairing

About PIMA

PIMA Electronic Systems is a leading developer and manufacturer of intruder alarm systems. Its portfolio of high-quality wired, hybrid and wireless alarm systems ranges from small and economic systems to advanced multi-zone ones.
PIMA's systems support a wide range of communication solutions and offer easy and fast programming features to suit all types of installations. PIMA's monitoring hardware and software solutions are deployed in professional sites in over 50 countries worldwide.

Founded in 1989, PIMA is a private company headquartered in Israel. All PIMA intruder alarm systems are designed to meet both residential and commercial applications, and are easily expandable to grow alongside customer's security needs. PIMA's products are sold and installed by top tier distributors around the globe.
